The world's
first true
ergonomic
keyboard.

A keyboard movement is here.

Smartfish has developed the world's first intelligent and healthy range of "injury avoidance" ergonomic keyboards and devices for your computer.

Our team of doctors and engineers have created a truly unique and innovative proprietary technology called **Dynamic Position Control™** (DPC™) which provides automatic movement to our revolutionary **PRO:Motion™** Keyboard, resulting in true ergonomics like you have never seen before.

These patented and innovative products actually eliminate the risks of Reptitive Stress Injury (RSI) and Carpal Tunnel Syndrome for the user.

Contact us to learn more about our new and exciting ergonomic products.

It will move you![™]
